SUMMARY

Java Full Stack Developer skilled in Frontend (React, HTML, CSS, JavaScript) and Backend (Java, Spring Boot, SQL). Built multiple real-world projects to strengthen practical skills. Experienced in delivering scalable and maintainable web applications. Passionate about innovative technology solutions and problem-solving.

EDUCATION

Shakuntala Vidyalaya, Bhilai   **64%**
Class 12th, 2020

Rungta College of Engineering, Bhilai   **CGPA: 7.9/10**
Bachelor of Technology (B.Tech) in Computer Science, 2024
  • Relevant Coursework: Data Structures and Algorithms (Java), Database Management Systems, Object-Oriented Programming, Operating Systems.

SKILLS

Programming Languages	Java, C/C++, JavaScript
Frontend Technologies	React.js, HTML5, CSS3, Bootstrap
Backend Technologies	Spring Boot, Spring Security, REST APIs, SQL, MySQL
Tools	IntelliJ IDEA, Git, GitHub

PROJECTS

- **Portfolio Website** (GitHub)
  - Personal portfolio to showcase projects, skills, and resume.
  - Tech Stack: React, HTML, CSS, JavaScript.
  - Fully responsive UI deployed online.

- **Student Management System** (GitHub)
  - Spring Boot based REST application with MySQL database.
  - Implemented authentication and role-based access (ADMIN, USER).
  - Validations and global exception handling included.

- **Wallet Payment Transfer Application** (GitHub)
  - Wallet-based payment transfer simulation using Spring Boot and React.
  - Secure login and balance transfer with validations.
  - Transaction history stored in MySQL.

- **Library Management System** (GitHub)
  - Backend application for managing books and members.
  - Book issue and return functionality with REST APIs.

CERTIFICATION

Java Full Stack Development Course – TechnoLearn Institute (2025)
- Completed an extensive Full Stack program covering Java, Spring Boot, React, and SQL.
- Implemented multiple real-world projects to gain practical development experience.
- Gained hands-on exposure through a project-based internship as part of the course.
- Learned to integrate frontend and backend applications and deploy web applications.
